

❄ ■ Easiwash Winterizing Checklist

Use this checklist whenever freezing temperatures are expected to help protect your Easiwash Cleaning System.

Winterize When:

- Temperatures may drop below 32°F
- The system will be unused during cold weather
- Power or heat loss is possible

Winterizing Steps:

- Shut off incoming water supply
- Relieve system pressure
- Drain all hoses, guns, and exposed plumbing
- Store hoses and accessories indoors
- Verify no standing water remains

Important Notice: Freeze damage caused by improper winterization is not covered under warranty.
